MULTI-USE DESIGN

## Trailer **2 kW**

### Clean Energy Hub

Our towable solar trailer and battery storage unit replaces traditional fuel-based generators with clean, reliable energy from the sun. The large battery bank allows you to keep on working into the night.

### Energy System

- DC solar array – 2 kW
- AC power inverter – 4 kW 120V
- Usable battery storage – 10 kWh 48V

### Dimensions

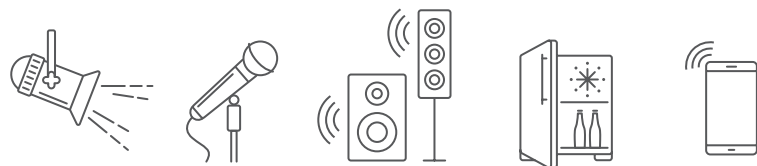

- 12 ft x 6 ft enclosed trailer frame
- 15 ft x 15 ft when fully deployed
- 100 sq ft of shade/shelter

### Features

- Quick-slide solar awning produces power while providing shade
- Easy-access storage space for all your equipment needs
- Completely pre-wired – just plug in!

### Use to Power

Lighting • Sound • Refrigeration • Communications • Electric mobility

**RENTAL: \$1,500 / WEEK – Recurring discounts available**

**BASE MSRP: \$49,499 – Upgrades and service plans offered**
